

What We Do.

Our services—virtually all of which we self-perform—extend from one end of the facility lifecycle to the other, and encompass nearly every type of project, from HVAC installation to lighting retrofits, to the installation of energy-efficient windows.

We offer the consistently reliable, high-performance services needed to reduce energy consumption and costs, enable more precise system control and management, and help ensure a continuous return on every facilities investment.

ECS Midwest's Suite of Services Include:

- » Project development
- » Site feasibility studies
- » System design and energy simulations
- » Rate analysis and savings calculations
- » Project economics
- » Provide tax credit and rebate estimates
- » Project financing solutions
- » Utility interconnection
- » Design-Build project construction
- » Ongoing system monitoring and maintenance

Long-term Solar Investments need Long-term Solar Partners.

EMCOR Construction Services Midwest (ECS Midwest) helps schools, governments, and other public organizations save energy and more by identifying areas where innovative efficiency-improvement measures can be taken.

By combining our knowledge of school budgets and financing with our end-to-end facilities systems expertise, we work with clients—through our guaranteed energy savings contracts—to help them get the most from every dollar they spend.

Expert Solar Energy Advice. Experienced Solar Energy Service.

Solar is a long-term investment and clients need a reliable, long-term partner. ECS Midwest's solar services provide clients with innovative renewable energy solutions that can be customized to satisfy unique power requirements while also helping to lower energy costs.

A Custom Energy Solution —designed with Clients in Mind.

ECS Midwest offers a range of solar services, including consulting, installation,

and maintenance, designed to help clients take full advantage of today's most popular source of renewable energy. ECS Midwest's expert solar consultants work with clients to specify their energy requirements and create customized strategies that meet power and budget needs. Then, in partnership with leading-edge manufacturers, ECS Midwest designs solar solutions that meet even the most rigid quality standards. Clients get the energy needed for efficient facility operation, while maintaining comfort through environmentally friendly solar power at a lower cost.
